REASONS FOR ALLOWANCE

1. Claims 2-22, 24, 26, 28-30 are allowed

The following is an examiner's statement of reasons for allowance:

- With regard to independent claims 2, 11, and 21; as the closest reference of record, Todd et al (US 6,252,739) discloses a tape drive head cleaner for a tape drive having a magnetic read/write head, the head cleaner comprising: a brush carriage; a brush mounted on the brush carriage; and a brush carriage movement mechanism coupled to the brush carriage for moving the brush carriage to cause the brush to swap along the length of the read/write head along a first direction and a second opposite direction; **but fails to show** the brush swaps along the length of the read/write head along a first direction and a second opposite direction following winding of a tape into a tape cartridge wherein the brush moving in the second direction occurs once movement in the first direction has completed.
- Applicant asserts, the advantage of the invention includes the sweeping of the brush along the same direction as the grooves of the write/read head, which allows the bristles of the brush to enter the grooves and provide a deeper, fuller cleaning of the write/read head. The improved removal of debris prevents an accumulation that causes deterioration of performance over time of the tape drive (Specification, p. 3).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
